## M SERIES - MILLENNIUM

The ROGERS MILLENNIUM is a versatile dump body, well-suited for standard jobs, as well as hauling the rough stuff. The center floor section has been upgraded to 3/8" AR450 steel for superior strength. The remainder of the body is constructed of 1/4" AR450 steel. Standard dimensions for the Millennium include 16' body length with side heights between 56" to 66". Additional features include ROGERS trademark hydraulic hi-lift tailgate, electric tarp, 8-inch push bumper, air actuated tailgate and customer preference of in-cab controls (air or cable).

"ROGERS - Another Word for Quality" has been our slogan as a trusted dump body manufacturer since 1946. Coast to coast, each ROGERS body is custom designed to match our customer's specific use. Collaborate with our sales team to design and build the exact body that suits your truck's needs.

### STANDARD MILLENNIUM SPECIFICATIONS & MATERIAL:

- **CYLINDER:** Front Telescopic
- **PUSH BUMPER:** Constructed of 3" schedule 80 pipe with 3/8" plate
- **TAILGATE:** 3-section with two horizontal angled braces to shed material & dirt shedding angle on top of tailgate. Forged lower tailgate latches for maximum performance
- **SIDE TOP RAIL MATERIAL:** 4" x 4" x 3/16" A572-GR tubing
- **FRAME:** 2" x 8" x 3/16" A572-GR tubing longitudinals with full depth front cross-members
- **HOISTWELL MATERIAL:** 1/4" AR450
- **PAINT:** Primed and painted with two part acrylic urethane in traditional ROGERS black
- **LIGHTS:** Standard light package consists of LED marker lights and rear post stop/turn LED lights conforming to FMVSS #108
- **ADDITIONAL STANDARD FEATURES:** 20" cabshield, rear & front rubber mudflaps, inside step safety supports
